## Our Business

We are an International Specialist Engineering, Procurement, Fabrication & Construction Company in the Energy Sector and amongst the World's Leading Service Providers for Storage Tanks & Process Equipment.

We are in our sixth decade of operations with over 5000 projects successfully delivered across the Indian subcontinent, the Middle East, Australia & Africa.

We have an extensive and world class portfolio of references that include some of the world's largest Oil & Gas Storage Terminals and Heavy Process Equipment with single piece weights of up to 1425 Mt.

The successful implementation of such challenging projects inspires us to seek new benchmarks to set and new landmarks to build.

## Our People

We are a team of 350 engineers & 3500 crew deployed across VTV's Offices, Fabrication Plants & Project Sites.

Every critical aspect of a project is managed by us, directly, with our highly skilled in-house resources. This distinctive operational philosophy gives us hands-on knowledge and a greater ability to capture critical details relevant to project management; leading to enhanced value for our customers in terms of competitive costs, on-time delivery and high-quality workmanship.

Our people operate within a flat hierarchy. We empower and encourage them to take direct ownership of their work. This ensures a strong sense of personal commitment, allows a high degree of responsiveness and sharpens our result focus.

## Scope of Services

We deliver Storage Tanks & Process Equipment across the entire range of contracting options from Shop Fabricated Supplies to Turnkey Projects from concept to commissioning.

### Shop Fabricated Supplies

Design, supply of Prefabricated Tank Materials and field supervision / construction management of field erection works

Delivery of Fabricated Process Equipment with field installation supervision services

### EPC Projects

Engineering, Procurement & Construction of Storage Tanks including Civil, Piping & E&I Works in dyke area

Design & Field Fabrication of over dimensioned Process Equipment including heavy lift erection works

### Turnkey Projects

Basic & Detailed Engineering, Procurement, Construction & Commissioning services for Storage Terminals & Process Plants including Civil & Structural, Mechanical & Piping, E&I works and all associated facilities on Lumpsum Turnkey Basis

### Maintenance Services

Tank Service Modification Upgrade

Tank Inspection & Revalidation

Equipment Shutdown Revamp

Cryogenic Ethylene Storage Facility

Hydrogen Spheres

LPG Mounded Bullets

Crude Oil Storage Terminal
